WORK EXPERIENCE
MERN Full Stack Developer | Openintervue | Bengaluru   **April 2024 – Present**
- Developed a comprehensive **User Management System** to streamline user-related operations, achieving a 15-20% boost in efficiency, improving overall application usability, and providing actionable insights for users.
- Built a detailed **Reports** and **Dashboard** Section for data analysis and visualization, enhancing workflows by 10-15%.
- Designed and implemented an intuitive **User Profile** Section to improve user engagement and satisfaction, resulting in a 5-10% improvement in user interaction. Developed **Kanban** dashboard to optimize workflow management.
- Optimized the entire codebase using **ES6** standards in ReactJS, using the reusable components for consistency, increasing application performance and maintainability by 15-20% for scalable development.

Tech Stack: **ReactJs | NodeJs | MongoDB | Redux | Redux Thunk | Express | Tailwind CSS | Git | GitHub | AWS | TypeScript | Ant Design**

Software Developer - Full Stack | Codeacious Technology Pvt. Ltd. | Noida   **Nov 2022 – Nov 2023**
- Developed key features of the **Media Management System** and the **Editor components** for efficient content creation.
- Created optimized screens to manage **SEO content**, ensuring better visibility of the content and improving search engine rankings for targeted content for the web application created on the Coot **CMS** project.
- Integrated **GenAI services** like **Midjourney** and **Leonardo.ai** on the backend to handle AI-service data and streamline functionalities effectively on the Coot.ai project. Creation of **Chatbot** components for interactive communication.

Tech Stack: **ReactJs | NodeJs | MongoDB | Redux | Express | Tailwind CSS | GitHub | Socket.io | Ant Design | Git | TypeScript | Material UI**

PROJECTS
Shoes-for-men | https://github.com/Shubham0442/shoes-for-men-project | https://shoesformen.netlify.app/
- A full-stack e-commerce platform with user **authentication** and **authorization**.
- Implemented advanced filtering, sorting, pagination, cart management, and order tracking.
- Built admin functionality for product management and real-time order status updates.
- Utilized React.js, Redux, Node.js, Express.js, MongoDB, Chakra UI, Git, and GitHub for efficient development and version control.

CERTIFICATIONS
Full Stack Web Development | Masai School | Bengaluru   **Jan 2022 – Oct 2022**
- Learned **MERN** Stack and **Data Structures & Algorithms** and built individual and collaborative projects.
- Completed in-depth hands-on training in front-end and back-end development with cutting-edge technologies.

EXTRA - CURRICULAR ACTIVITIES AND ACHIEVEMENTS
Member | Quality Circle | NCQC 2012 | QCFI | IIT Kanpur
Member of Distinguished Prize Winner Quality Circle at the 23rd National Convention and Competition on Quality Circles

SKILLS
Tech Skills: HTML | CSS | JavaScript | ReactJs | Redux | Redux-Thunk | Redux-Saga | NodeJs | ExpressJs | MongoDB
          Tailwind CSS | Material-UI | Chakra-UI | Ant Design | AWS | Socket.io | TypeScript | Mongoose | Postman
          Jest | Cypress| Git | GitHub | DSA
Soft Skills: Adaptive | Problem Solving | Collaborative | Team work
