SUMMARY

ReactJS Developer with over 2 years of experience delivering high-performance, user-friendly web applications using React.js, Redux, and TypeScript. Proven track record in building scalable front-end architectures, implementing responsive UI components, and collaborating within agile, cross-functional teams. Passionate about solving complex UI challenges and enhancing user experience across full project lifecycles.

EDUCATION

NAME OF COURSE	PASSING YEAR	INSTITUTE	CGPA/PERCENTAGE
B.E. (Mechanical Engineering)	2017	Amravati University	8.25
Diploma (Mechanical Engineering)	2014	Govt. Polytechnic, Washim	83.40 %
X	2011	State Board of Maharashtra	90.91 %

WORK EXPERIENCE

MERN Full Stack Developer | Openinterview | Bengaluru

April 2024 – July 2025

- **Led front-end development** of a dynamic User Management System using React.js and Redux, improving user operations efficiency by 15–20%.
- Developed a data-driven **Reports and Dashboard Section** with React and Ant Design, optimizing insights delivery by 10–15%.
- Crafted responsive **User Profile and Kanban dashboard UIs**, enhancing engagement by up to 10%.
- Refactored React components for reusability and performance using ES6 standards, achieving a 20% gain in maintainability.

Tech Stack: ReactJS | NodeJS | MongoDB | Redux | React-Redux | Redux Thunk | Redux-Toolkit | Express | Tailwind CSS | Git | GitHub | AWS | TypeScript | Ant Design

Software Developer - Full Stack | Codeacious Technology Pvt. Ltd. | Noida

Nov 2022 – Nov 2023

- Built and maintained **content editing UI components** in React for the Media Management System.
- Engineered **SEO-friendly admin screens** using Redux and Tailwind, improving search visibility and editing workflows.
- Integrated **chatbot UI** and **generative AI** services in collaboration with backend teams using React and Socket.io.

Tech Stack: ReactJS | NodeJS | MongoDB | Redux | Redux-Saga | Express | Tailwind CSS | GitHub | Socket.io | Ant Design | Git | TypeScript | Material UI

PROJECTS

Shoes-for-men | <https://github.com/Shubham0442/shoes-for-men-project> | <https://shoesformen.netlify.app/>

- A full-stack e-commerce platform with user **authentication** and **authorization**.
- Implemented advanced filtering, sorting, pagination, cart management, and order tracking.
- Built admin functionality for product management and real-time order status updates.
- Utilized React.js, Redux, Node.js, Express.js, MongoDB, Chakra UI, Git, and GitHub for efficient development and version control.

CERTIFICATIONS

Full Stack Web Development | Masai School | Bengaluru

Jan 2022 – Oct 2022

- Learned **MERN Stack** and **Data Structures & Algorithms** and built individual and collaborative projects.
- Completed in-depth hands-on training in front-end and back-end development with cutting-edge technologies.

EXTRA-CURRICULAR ACTIVITIES AND ACHIEVEMENTS

Member | Quality Circle | NCQC 2012 | QCFI | IIT Kanpur

Member of Distinguished Prize Winner Quality Circle at the 23rd National Convention and Competition on Quality Circles

SKILLS

Frontend: ReactJS, Redux, Redux-Thunk, Redux-Saga, React-Redux, Redux-Toolkit, JavaScript, TypeScript, HTML, CSS

Backend: Node.js, Express.js, MongoDB, Mongoose

UI Libraries: Tailwind CSS, Material UI, Ant Design, Chakra UI

Dev Tools: Git, GitHub, Postman, AWS, Socket.io, Jest, Cypress

Soft Skills: Problem Solving, Adaptability, Team Collaboration, Ownership
